

# **HEALTH AIDE ACTIVITY**

**Services must be clearly indicated in student IEP**

Health Aide activity must be a minimum of 15 continuous minutes.

**On your Health Aide log please put :**

**Student full Name**  
**Date of Birth**  
**Dates of Service**  
**Frequency and length of Service**  
**Provider of Service Name or Initials**

You cannot add times together to make 15 mins., i.e..... 10 mins. in the morning and 10 in the afternoon.

**Health Aide services include :**

1. Catherizations
2. G-Tube Feedings
3. Trach. / Suctioning services
4. Seizure control measures
5. Diabetic Monitoring / Insulin injections
6. \* Any other IEP driven "Specialty Service"

\* Check with billing service at email address : AskDoug@mbs-online.org for unique scenario's and related questions.

**IMPORTANT NOTE : Toileting, Diapering, Feeding not billable to Medi-Cal.**

According to Medi-Cal these are considered "personal care".

We can bill for feeding when it's in the act of dispensing a medication.

**Example : You must crush a students medication and put in applesauce in order to dispense.**

Simply monitoring a student, i.e.... watching a self-cath. etc is NOT billable. However the time spent monitoring "after" a direct service is provided should be included in your 15 minute blocks of time.
